

Ultra light flight - days

Go on days trip for

\$ per person

Ultra light aircraft take off from Pokhara and offer spectacular views of the lakes, mountains and villages. This is an ideal way to see life from a new perspective. The choice of the Pokhara Valley for ultra-light aircraft is appropriate chiefly because of the proximity of the mountains, and the scenic lakes. For those who wished they could fly like birds when growing up, this flight is view from up high certainly makes it all worth it. Flights through June. The flights take place from sunrise to 11 a.m. and from 3 p.m. to sunset every day during these months.

Place of Operation

Since its inception in 1996 , we have been offering sightseeing tours aboard the ultra-light aircraft (power-glider) in the Pokhara Valley . the scenic lake valley and proximity to the mountains makes it an ideal place for such

The Regular Featured Flights

The Altra light flights from the Pokhara airport beginning September through June. The flights take place from sunrise to 11 a.m. and from 3 p.m. to sunset every day during these months. Three different routes are taken.

Fly for Fun

The flight duration is 15 minutes . The aircraft flies over the Pokhara city , Phewa Lake , Sarangko t hill at the speed of 50 km/hour to 90 km/hr .

The maximum altitute attained is 5,000 feet . This flight is designed for the curious who just wants to have a little fun.

Touch the Fish Tail

Not quite, but still this flight takes as close to the Fish Tail as is possible without compromising the safety. The flight duration is 30 minutes . The speed is 90 km/hr.

Mountain Range Sky Trek

Flight duration is One hr . This flight covers the whole of the Annapurna range at the speed of 90 km/hr to 130 km/hr . The altitude attained is 12, 000 ft , high above the clouds. This flight is intended for those who like to live life on the fast track, and love a little adrenaline rush now and then.

Before Flight

you will be briefed about the flight path (route) before you take off, so you can prepare for pictures and point of interest ahead of time. All three of our aircraft can fly close to each other so that you can enjoy your flight with

your family friends and also take pictures of each other. You can even play hide and seek in the air or go for roller coaster ride if you wish! All our passenger receive personalized service.

Ultra light aviation is the flying of lightweight, 1 or 2 seat fixed-wing aircraft, also called micro light aircraft or Ultra light Flight. Micro lights or ultra light aircraft now account for a significant percentage of the global civilian-owned aircraft. In countries where there is no specific extra regulation, ultra lights are considered regular aircraft and subject to certification requirements for both aircraft and pilot.

List of flights currently available are shown below

15 minutes flight

The shortest flight takes you over Pokhara city, Fewa Lake, near Sarangkot hill, over the World Peace Buddha monastery and the south side of the city. This short flight will give you a panoramic view of the whole Annapurna Range with a view of another 8000 m peak – Dhaulagiri, in the distance.

30 minutes Flight

This medium length flight, takes you slightly higher and further. You go as far as Lamachour, on the northern part of the valley. You fly over the Tibetan refugee camp and the view is simply superb.

1 hour Mountain ‘Sky Trek’

The flight takes you over Pokhara city, Fewa Lake, near Sarangkot hill, over the Buddha monastery and the south side of the city, and past Lamachour, on the northern part of Pokhara valley. You fly over the Tibetan refugee camp. You fly at an altitude of 9,000 feet above sea level and you go very close to Fish Tail peak and enter the Seti Valley.
